Class of 2021

I am a senior at Valley High School and I have been in AVID for the past 6 years since 7th grade. What I want to tell you about AVID is that **AVID lets you learn new skills** like **organization, note-taking, and team bonding**. These will definitely benefit in the future especially junior and senior year. Being in AVID will also let you meet new people who will help and **benefit you in the future** and may let you make new friends and peers. I definitely recommend this program if you want to go to college because this program has helped me learn how to apply to colleges, which college I want to go to, and helped me with scholarship applications. AVID will also help you with finding scholarships and Financial Aid applications. I only recommend this program if you are committed to doing your work and **striving to be the best**. -Nathan

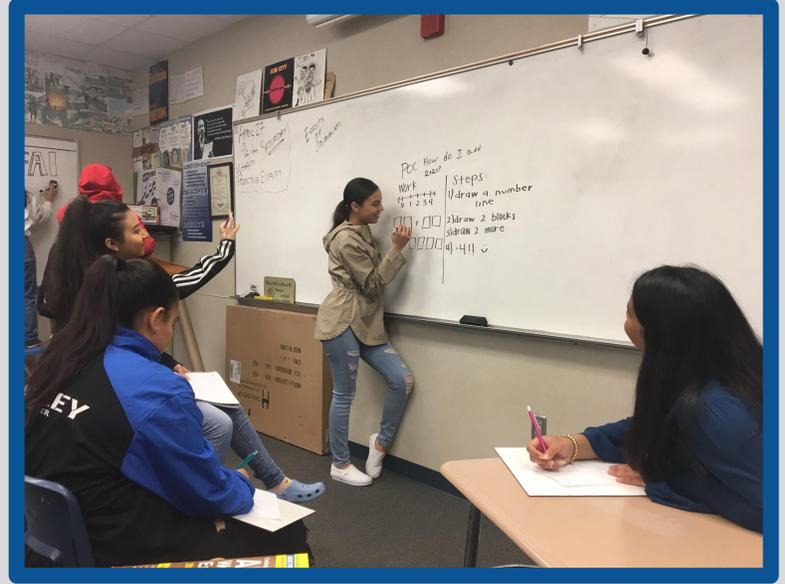

I am a 5th-year AVID Student, I have experienced many **learning opportunities and collaborated with my classmates** on several occasions. AVID has taught me the **importance of education** as a whole and various techniques to **improve my skills in the classroom**. I did not know that taking notes could be so important until I took AVID, notes have helped me pass my tests and improve my grades. With the help of AVID and hard work/dedication, I was able to reach a 4.5GPA for the first quarter of my Senior year of High School. -Javier

My AVID journey began in 7th grade. I honestly wouldn't find AVID interesting but that was only because I would never apply myself to the class. It really **helped me be a more organized student**. But once I got to High School is when I really started to enjoy it. Of course, it was still a **college prep class** so we had work to do but it felt more like a family than a class. You **develop a relationship** with your teacher and everyone fits in. **No matter who you are, you fit in**. -Enrique

Class of 2021

When I first joined AVID I was a freshman, I had never taken any course or been in any program that was similar to it before. At first, I didn't know what to expect, but in the long run, **AVID has turned out to be a very helpful part of my life.** It has taught me lots of things not only **about myself,** but also **skills that I will continue to use in the future.** It showed me proper note-taking, organization skills, accountability, public speaking skills, as well as how to properly communicate and help my peers. **-Arlekim**

When I first joined AVID, I was a freshman and I had no idea what I wanted to do after high school or if I even wanted to go to college. And to be so honest it never came across my mind to take a course like AVID. I saw AVID as a regular class that I was just trying to pass and get over with. When I first started, I lacked skills in a few things. I was shy and scared to speak during class because I feared that I was going to be made fun of. But little did I know that everyone else around me felt the same exact way and we had much more in common. AVID helped me establish sibling-like relationships with my peers, **helped me decide what I want to do with my future** and where I want to go. And most importantly **AVID helped me improve my leadership, communication, problem-solving, teamwork, and self-advocacy skills.** I definitely do not regret taking AVID. **-Jaky**

AVID for me was definitely an experience, I have taken AVID for 4 years and I am currently in my 5th year as a Senior. Personally, **I recommend this program because it has helped me become a better student.** I never had a system for organizing my binder or taking down notes. These simple things were not so simple to me, I didn't know what it looked like to be organized. There are many times when I questioned AVID because it felt like some parts were useless, at times it can feel like this. That's just my opinion. However, my 10th and 12th-grade teacher has taught me that **it's about what you put into the program, which is what you get from the program.** So, the program is not for everyone and it won't be for you unless you want it to be. It's your choice. **-Justin**
